## How to Clean & Disinfect

## **PLEXIGLASS**

Select an appropriate WAXIE disinfectant that works on hard, non-porous surfaces.

Put on your safety glasses and gloves.

Consult product label for dilution instructions.

Apply the disinfectant to surface with a cloth, sponge or coarse sprayer and wipe plexiglass surface until thoroughly wet.

For spray applications, hold 6-8 inches from the surface.

Allow surface to remain wet. See product label instructions for appropriate dwell time.

Wipe all surfaces dry with a clean cloth or allow to air dry.

Do not use abrasive cleaning tools or materials on plexiglass.

Recommended Product:

## **HP Disinfectant Cleaner**

Read all product instructions carefully for proper use and maximum effectiveness.
